#### Rules for Safe Pen Pals:

- Don't share your address or personal information. Favorites are okay, but don't tell a stranger your home address or birthday.
- Never send money or financial information to someone. Even if you think you know them, if you have not met them in person and have a relationship with them, you should not be sending them money.
- Tell an adult if anything inappropriate, abusive, vulgar, violent, or suspicious occurs. Disrespectful behavior should never be tolerated. Especially if they send an inappropriate picture.
- Don't sell things to others because you are pen pals. Connect and communicate only.

Why we love scouting:
